DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to more than one species of the generic invention. The species are as follows:

Types of Propulsion Means

Species 1	Figures 2a-b, 3a	linear motor
Species 2	Figures 3b, 10	air muscle actuator
Species 3	Figures 9a-b	thrust force motor with belt
Species 4	Figure 9c	thrust force motor with two belts
Species 5	Figure 11	rotary motor

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

2. The claims are deemed to correspond to the species listed above in the following manner:

Art Unit: 3764

Species 1 claim 12 (possibly 13-17, presently claims 13-14 lack antecedent basis and it is uncertain whether they depend from claim 12)

Species 2 claim 22

Species 3 claims 18-20

Species 4 claim 21

Species 5 claims 23-26

3. The following claim(s) are generic: claims 1-11 and 27-61.
4. Due to the complexity of the requirement, a request an oral election to the above restriction requirement was not made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Denise M. Pothier whose telephone number is 703.308.0993.
